File No. 416

February Session, 2022

Substitute House Bill No. 5430

House of Representatives, April 12, 2022

The Committee on Public Health reported through REP. STEINBERG of the 136th Dist., Chairperson of the Committee on the part of the House, that the substitute bill ought to pass.

#### AN ACT CONCERNING OPIOIDS.

Be it enacted by the Senate and House of Representatives in General Assembly convened:

- Section 1. Section 20-14s of the general statutes is repealed and the following is substituted in lieu thereof (*Effective July 1, 2022*):
- A prescribing practitioner, as defined in section 20-14c, who prescribes an opioid drug, as defined in section 20-14o, for the treatment
- 5 of pain for a patient for a duration greater than twelve weeks shall
- 6 establish a treatment agreement with the patient or discuss a care plan
- 7 for the chronic use of opioids with the patient. The treatment agreement
- 8 or care plan shall, at a minimum, include treatment goals, risks of using
- 9 opioids, urine drug screens and expectations regarding the continuing
- 10 treatment of pain with opioids, such as situations requiring
- 11 discontinuation of opioid treatment and, to the extent possible,
- 12 nonopioid treatment options, including, but not limited to
- 13 manipulation, chiropractic, spinal cord stimulation, massage therapy,
- 14 acupuncture, physical therapy and other treatment regimens or
- modalities. A record of the treatment agreement or care plan shall be

16 recorded in the patient's medical record.

Sec. 2. Subdivision (20) of section 21a-240 of the 2022 supplement to the general statutes is repealed and the following is substituted in lieu thereof (*Effective July 1*, 2022):

(20) (A) "Drug paraphernalia" [refers to] means equipment, products and materials of any kind [which] that are used, intended for use or designed for use in planting, propagating, cultivating, growing, harvesting, manufacturing, compounding, converting, producing, processing, preparing, testing, analyzing, packaging, repackaging, storing, containing or concealing, or ingesting, inhaling or otherwise introducing into the human body, any controlled substance contrary to the provisions of this chapter including, but not limited to: (i) Kits intended for use or designed for use in planting, propagating, cultivating, growing or harvesting of any species of plant [which] that is a controlled substance or from which a controlled substance can be derived; (ii) kits used, intended for use or designed for use in manufacturing, compounding, converting, producing, processing or preparing controlled substances; (iii) isomerization devices used [,] or intended for use in increasing the potency of any species of plant [which] that is a controlled substance; (iv) testing equipment used, intended for use or designed for use in identifying or analyzing the strength, effectiveness or purity of controlled substances; (v) dilutents and adulterants, [such as] including, but not limited to, quinine hydrochloride, mannitol, mannite, dextrose and lactose used, intended for use or designed for use in cutting controlled substances; (vi) separation gins and sifters used, intended for use or designed for use in removing twigs and seeds from, or in otherwise cleaning or refining, marijuana; (vii) capsules and other containers used, intended for use or designed for use in packaging small quantities of controlled substances; (viii) containers and other objects used, intended for use or designed for use in storing or concealing controlled substances; (ix) objects used, intended for use or designed for use in ingesting, inhaling, or otherwise introducing marijuana, cocaine, hashish, or hashish oil into the human body, [such as: Metal] including, but not limited to, wooden, acrylic,

50 glass, stone, plastic or ceramic pipes with screens, permanent screens, 51 hashish heads or punctured metal bowls; water pipes; carburetion tubes 52 and devices; smoking and carburetion masks; roach clips; [: Meaning 53 objects used to hold burning material, such as a marijuana cigarette, that 54 has become too small or too short to be held in the hand; miniature 55 cocaine spoons [,] and cocaine vials; chamber pipes; carburetor pipes; 56 electric pipes; air-driven pipes; chillums; bongs; [or] ice pipes [or] and 57 chillers. "Drug paraphernalia" does not include a product used by a 58 manufacturer licensed pursuant to this chapter for the activities 59 permitted under the license or by an individual to test any substance 60 prior to injection, inhalation or ingestion of the substance to prevent 61 accidental overdose by injection, inhalation or ingestion of the 62 substance, provided the licensed manufacturer or individual is not 63 using the product to engage in the unlicensed manufacturing or 64 distribution of controlled substances. As used in this subdivision, "roach clip" means an object used to hold burning material, including, but not 65 66 limited to, a marijuana cigarette, that has become too small or too short 67 to be held between the fingers;

- (B) "Factory" means any place used for the manufacturing, mixing, compounding, refining, processing, packaging, distributing, storing, keeping, holding, administering or assembling illegal substances contrary to the provisions of this chapter, or any building, rooms or location which contains equipment or paraphernalia used for this purpose;
- Sec. 3. Section 21a-317 of the general statutes is repealed and the following is substituted in lieu thereof (*Effective July 1, 2022*):
  - Every practitioner who distributes, administers or dispenses any controlled substance or who proposes to engage in distributing, prescribing, administering or dispensing any controlled substance within this state shall (1) obtain a certificate of registration issued by the Commissioner of Consumer Protection in accordance with the provisions of this chapter, [and] (2) if the practitioner is engaged in prescribing a controlled substance, register for access to the electronic

prescription drug monitoring program established pursuant to 83 84 subsection (j) of section 21a-254 [. Registration for access to said program 85 shall be in a manner prescribed by said commissioner] in a manner prescribed by the commissioner, and (3) if the practitioner is engaged in 86 87 transporting a controlled substance for the purpose of treating a patient 88 in a location that is different than the address that the practitioner 89 provided to the Department of Consumer Protection as a registrant, as defined in section 21a-240, as amended by this act, notify the 90 91 department, in a manner prescribed by the commissioner, of the intent 92 to transport such controlled substance and, after dispensing such 93 controlled substance, return any remaining amount of such controlled 94 substance to a secure location at the address provided to the 95 department. If the practitioner cannot return any remaining amount of 96 such controlled substance to such address, the commissioner may 97 approve an alternate location, provided such location is also approved 98 by the federal Drug Enforcement Agency, or any successor agency. The 99 practitioner shall report any dispensation by the practitioner of a 100 controlled substance that occurs at a location other than the address 101 provided to the department to the prescription drug monitoring 102 program pursuant to subsection (j) of section 21a-254 upon returning to 103 such address.

Sec. 4. Subdivision (1) of subsection (c) of section 19a-493 of the 2022 supplement to the general statutes is repealed and the following is substituted in lieu thereof (*Effective July 1, 2022*):

(c) (1) A multicare institution may, under the terms of its existing license, provide behavioral health services or substance use disorder treatment services on the premises of more than one facility, at a satellite unit or at another location outside of its facilities or satellite units that is acceptable to the patient receiving services and is consistent with the patient's assessment and treatment plan. Such behavioral health services or substance use disorder treatment services may include methadone delivery and related substance use treatment services to persons in a nursing home facility pursuant to the provisions of section 19a-495c or in a mobile narcotic treatment program, as defined in 21 CFR

- 123 treatment and reduction of alcohol and drug abuse problems to be 124 known as the state substance [abuse] use disorder plan. Such plan shall 125 include a mission statement, a vision statement and goals for providing 126 treatment and recovery support services to adults with a substance use 127 [disorders] disorder. The plan shall be developed by July 1, 2010, and 128 thereafter shall be triennially updated by July first of the respective year. 129 The commissioner shall develop such plan, mission statement, a vision 130 statement and goals after consultation with: (1) The Connecticut Alcohol 131 and Drug Policy Council established pursuant to section 17a-667; (2) the 132 Criminal Justice Policy Advisory Commission established pursuant to 133 section 18-87j; (3) the subregional planning and action councils 134 established pursuant to section 17a-671; (4) clients and their families, 135 including those involved with the criminal justice system; (5) treatment 136 providers; and (6) other interested stakeholders. The plan shall outline 137 the action steps, time frames and resources needed to meet specified 138 goals and shall, at a minimum, address: (A) Access to services, both 139 prior to and following admission to treatment; (B) the provision of 140 comprehensive assessments to those requesting treatment, including
- 145 outcome measures of specific treatment and recovery services in the 146 overall system of care; (F) information regarding the status of treatment

individuals with co-occurring conditions; (C) quality of treatment

services and promotion of research-based and evidence-based best

practices and models; (D) an appropriate array of prevention, treatment

and recovery services along with a sustained continuum of care; (E)

- 147 program availability for pregnant women, including statistical and
- 148
- demographic data concerning pregnant women and women with
- 149 children in treatment and on waiting lists for treatment; (G) department
- 150 policies and guidelines concerning recovery-oriented care;

provisions of the community reentry strategy concerning substance [abuse] use disorder treatment and recovery services needed by the offender population as developed by the Criminal Justice Policy and Planning Division within the Office of Policy and Management; (I) an evaluation of the Connecticut Alcohol and Drug Policy Council's plan described in section 17a-667 and any recommendations for changes to such plan; [and] (J) a summary of data maintained in the central repository, described in subsection (o) of this section; and (K) department policies, guidelines and practices aimed at reducing the negative personal and public health impacts of behavior associated with alcohol and drug abuse, including, but not limited to, the abuse of an opioid drug, as defined in section 20-14o. The plan shall define measures and set benchmarks for the overall treatment system and for each stateoperated program. Measures and benchmarks specified in the plan shall include, but not be limited to, the time required to receive substance [abuse] use disorder assessments and treatment services either from state agencies directly or through the private provider network funded by state agencies, the percentage of clients who should receive a treatment episode of ninety days or greater, treatment provision rates with respect to those requesting treatment, connection to the appropriate level of care rates, treatment completion rates and treatment success rates as measured by improved client outcomes in the areas of substance use, employment, housing and involvement with the criminal justice system.

Sec. 6. Subsection (c) of section 17a-710 of the general statutes is repealed and the following is substituted in lieu thereof (*Effective from passage*):

(c) The department shall include in the state substance [abuse] <u>use</u> <u>disorder</u> plan, developed in accordance with subsection (j) of section 17a-451, <u>as amended by this act</u>, goals to overcome barriers to treatment which are specific to pregnant women and women with children and to provide increased treatment services and programs to pregnant women. Such programs shall be developed in collaboration with other state agencies providing child care, family support, health services and early

#### AN ACT CONCERNING OPIOIDS.

#### SUMMARY

This bill makes various changes affecting opioid use prevention and treatment. Specifically, it:

- 1. adds chiropractic and spinal cord stimulation to the list of nonopioid treatment options that must be included on a patient's treatment agreement or care plan that prescribing practitioners must provide when prescribing opioids for more than 12 weeks (§ 1);
- 2. removes from the statutory definition of "drug paraphernalia" products used by licensed drug manufacturers or individuals to test a substance before they ingest, inject, or inhale it, (e.g., fentanyl testing strips), as long as they are not using the products to engage in unlicensed manufacturing or distribution of controlled substances (§ 2);
- 3. allows practitioners authorized to prescribe controlled substances to treat patients by dispensing controlled substances (e.g., methadone) from a mobile unit (§ 3);
- 4. allows multi-care institutions to provide behavioral health services or substance use disorder treatment services in a mobile narcotic treatment program (§ 4); and
- 5. requires DMHAS' triennial state substance use disorder plan to include department policies, guidelines, and practices to reduce the negative personal and public health impacts of behavior associated with alcohol and drug abuse, including opioid drug abuse (§§ 5 & 6).

The bill also makes technical and conforming changes.

EFFECTIVE DATE: July 1, 2022, except that the provision making technical changes to the state substance use disorder plan takes effect upon passage (§ 6).

# § 1 — PRESCRIPTION OPIOID PATIENT CARE PLAN

By law, a prescribing practitioner who prescribes more than a 12-week supply of an opioid drug to treat a patient's pain must (1) establish a treatment agreement with the patient or (2) discuss a care plan for the chronic use of opioid drugs with the patient.

Among other things, the agreement or plan must include, to the extent possible, nonopioid treatment options. The bill adds chiropractic and spinal cord stimulation to these treatment options. Current law already requires the agreement or plan to include manipulation, massage therapy, acupuncture, physical therapy, and other treatment regimens or modalities.

# § 3 — MOBILE UNITS FOR DISPENSING CONTROLLED SUBSTANCES

The bill allows practitioners authorized to prescribe controlled substances to treat patients by dispensing controlled substances (e.g., methadone) through a mobile unit.

Specifically, it requires a prescribing practitioner who transports controlled substances to treat patients at a different location than the one the practitioner provided the Department of Consumer Protection (DCP) (when obtaining a controlled substances registration and prescription drug monitoring program access) to:

- 1. notify DCP, in a manner the commissioner prescribes, of the intent to transport the controlled substances;
- 2. after dispensing the controlled substances, return any remaining amount to a secure location at the address provided to DCP;
- 3. report to the Prescription Drug Monitoring Program any dispensing of these substances that occurs at a location other than

the location provided to DCP.

Under the bill, if the practitioner is unable to return any remaining amount of the controlled substances to the address, the commissioner may approve an alternate location, provided it is also approved by the federal Drug Enforcement Agency.

# § 4 — MULTICARE INSTITUTIONS

The bill allows multicare institutions to provide behavioral health services or substance use disorder treatment services to patients in a mobile narcotic treatment program (see BACKGROUND).

Existing law authorizes multicare institutions to provide these services at a satellite unit or other off-site location, so long as they provide the Department of Public Health (DPH) a list of these locations on their initial or licensure renewal application.

By law, multicare institutions include hospitals, psychiatric outpatient clinics for adults, free-standing facilities for substance abuse treatment, psychiatric hospitals, or general acute care hospitals that provide outpatient behavioral health services that (1) have more than one facility or one or more satellite units owned and operated by a single licensee and (2) offer complex patient health care services at each facility or satellite unit.

## **BACKGROUND**

# Mobile Narcotic Treatment Program

Under federal regulation, a mobile narcotic treatment program (NTP) is one that operates from a motor vehicle and serves as a mobile component of a registered NTP. It provides maintenance or detoxification treatment with Schedules II-IV controlled substances at a location remote from, but within the same state as, the registered NTP (21 C.F.R. § 1300).
